

# Nothing Out Of Nothing

Great Big Sea

1. I leaft my home , my famiy by the ocean  
All on my own , to set my fortune  
But there`s no place to occupy this young hands  
So look out boy, you`re heading for the main land

R: And what do you do, you can`t make nothing out of nothing  
Everybody needs a start  
And what do you do you can`t make nothing out of nothing  
Give my country back his heart

2. Now I was born on a St. John's street  
Where all my hopes could meet with defeat  
I hired my days to higher education  
No I'm so smart I could rule this comdenation

R: And what do you do...

3. Now I`m alone but I`m working everyday  
I get stone down blown all my pay  
Just to survive I do whatever I can  
Now I`m alive but I can`t be a real man

R: And what do you do...
