

# Own True Way

## Great Big Sea

1. It takes a lot to get to the top  
And a little just to fall off quick  
And I think I've seen you here before

Sometimes you fly so high  
So fast it makes you sick  
You won the battle lost the war

X: But I don't mind if you say  
Every time you talk to me  
Every time we talk

R: We came, we saw  
We conquered and crumbled  
In our own true way  
We loved, we fought  
We rocked and we tumbled  
In our own true way

2. Well I believe in brotherhood  
And the good of all mankind  
Though I admit it's hard to find

But if you want to talk just come and knock  
It don't matter what the time  
Solitude is no friend of mine

X: And I don't mind if you say...

R: We came, we saw...

3. I don't mind  
It's hard to be from a rock in the sea  
Livin' in a big steel town  
Finding unfamiliar faces all around

You heard 'em tell stupid jokes  
You heard 'em laugh everytime you spoke  
But you don't let nobody put you down

X: But I don't mind if you say...

R: We came, we saw...

In our own true way...  
And I don't mind...  
If you say...
