

## Something To It

Great Big Sea

1. I'm sorry if I ruined your day  
I really hope that you understand  
I'm a million miles away  
Looking for a place to land

2. My father phoned me yesterday  
Your time has come, well done my son  
Tried to think of what to say  
When words can't heed all they got

R: I don't know how I got here  
There must be something to it  
I think i need some time alone  
To work my way through it

3. The moon is in the sky tonight  
Not very warm but it sheds some light  
Ask me now and I just might  
Let the morning come and tell me if its right

R: I don't know how i got here...

4. Soon initial bliss will pass  
This precious time might be your last  
Like dew upon the morning grass,  
Good intentions can vanish with the sun

5. I'm sorry if I ruined your day  
I really hope that you understand  
I'm a million miles away  
Looking for a place to land

I'm a million miles away  
Looking for a place to land
