

Stumbling In

Great Big Sea

I don't mind confiding
That I make stupid mistakes
Been misled and misguided
And I'm easily led astray

You can dance with disaster
Never missing a step
Spinning faster and faster
Long after I've already slipped

R: But in the middle of it all
You always break my fall
In the middle of it all
Over and over, again and again
You come through the door and I'm stumbling in
I'm twisted and tangled and soaked to the skin
You come through the door and I'm stumbling in

Pulled in every direction
I've a million regrets
And you're the perfect protection
When I'm down and in over my head

R: But in the middle of it all...

And there's bones in my closet
I've collected quite a few
God knows what causes
An angel to love a fool

An angel to love a fool

R: But in the middle of it all...

I'm stumbling in (4x)
