

## Stumbling In

Great Big Sea

I don't mind confiding  
That I make stupid mistakes  
Been misled and misguided  
And I'm easily led astray

You can dance with disaster  
Never missing a step  
Spinning faster and faster  
Long after I've already slipped

R: But in the middle of it all  
You always break my fall  
In the middle of it all  
Over and over, again and again  
You come through the door and I'm stumbling in  
I'm twisted and tangled and soaked to the skin  
You come through the door and I'm stumbling in

Pulled in every direction  
I've a million regrets  
And you're the perfect protection  
When I'm down and in over my head

R: But in the middle of it all...

And there's bones in my closet  
I've collected quite a few  
God knows what causes  
An angel to love a fool

An angel to love a fool

R: But in the middle of it all...

I'm stumbling in (4x)
