City Of Sleep

Great Northern

Fallen through Reach behind me See if you remember me Come with me to that place where We remember what to be Follow me To that place where When you're lost You finally see Keep in mind as you remember All the answers you walked right through Quietly... We'll keep traveling We'll forget all that we need Later on when you find me We can sleep We'll sleep beneath the trees Ahahahah...owowow...[etc.]
