Great Northern

I dont remember Remember your face Stuck of the moments Tied to my waist If i could remember Remember your name Would you notice Nothings the same I don't remember Remember you name Please now forgive me I'm not the one They tried to destroy you My only son And i heard your voice I heard you leave They tried to destroy you They cut off your feet And i hope you notice That I'm not the one And i hope you notice That I'm not the one
