

# Big Time

Great White

Standing in the door way  
Right by the stage  
You feel your heart beating  
You know you 're turning a page  
Seems like a life time  
You've been playing their game  
But after the show  
Nothing will ever be the same

Let me tell you  
You've got what it takes  
Oh honey!  
Gonna raise the stakes

So, are you ready for the big time?  
Ready for the spotlight  
Are you gonna show the world  
Just who you are? Oh yeah

Did you ever think  
You would come this far?

Close your eyes  
It's a brand new day  
Step into the future  
Let the past fade away

Millions of people  
I will be screaming your name  
But you'll end up alone  
The price you pay for fame

You will find out  
There is no turning back, oh!  
Cause forever and ever  
You will ride this track

So, are you ready for the big time?  
Ready for the spotlight  
Are you gonna show the world  
Just who you are, oh yeah!

Did you ever think  
You would come this far?

Hum  
Oh yeah

Hum  
Oh yeah

Let me tell you  
You've got what it takes  
I say honey, gonna raise the stakes  
Come on now! Raise the stakes!

So, are you ready for the big time?

Ready for the spotlight  
Are you gonna show the world?  
Just who you are

Are you ready for the big time?  
Ready for the spotlight  
Are you gonna show the world  
Just who you are

Did you ever think  
You would come this far?

I said, did you ever think  
You would come this far?

Did you ever think?  
Did you ever think?  
Tell me, are you? Are ready?
