

Congo Square

Great White

There she goes, Miss Heart Attack
That girl is gone, ain't coming back
The love we had, call it yesterday
But now is now, today's today

And when the sun is shining
I still feel the same
And when the rain is coming down
I'm hurting with the pain

I've been here before
No love, no way, no more
Am I just a fool to fall for love?

Put my heart in gunnysack
Dress it up in black on black
Take it down to Congo Square
Raise it from the dead down there

And when the sun is shining
I will feel no pain
And when that rain is pouring down
I'm on my feet again

Watch me walk

I've been here before
No love, no way, no more
Am I just a fool to fall for love?

And when the sun is shining
Ain't going to feel no pain
And when that rain is pouring down
I'm on my feet again

I've been here before
No love, no way, no more
Am I just a fool to fall for love?
