

Desert Moon

Great White

Let's shake this town, baby, come with me
I need a little loving company
Come on now, I know where we can go
This is the time to stay out all night
I've got a fire like a heavenly light
Come on, baby, well, let's take a drive

Come on, baby, let's do it right
Time to dance in the magic light of the desert moon

Let's lay it down under a cactus tree
Give a little loving ecstasy
Come on now it's time to go
Little baby, you're a beautiful sight
I've got the love and we have the night
Come on, baby, it's time to fly

Come on, baby, let's do it right
Time to dance in the magic light of the desert moon
Come on, honey, let's get it right
Make romance in the magic light of the desert moon

Come on, baby, let's do it right
Time to dance in the magic light of the desert moon
Come on, honey, let's get it right
Make romance in the magic light of the desert moon
