

# Heart Of A Man

Great White

Every day, every night  
Try so hard to get it right  
Got my eyes on the prize  
Never stop till I'm satisfied

Daddy told me life is tough  
So hold on, it's going to be rough  
Make a move, stand tall  
If you don't you going to fall

I got to believe, oh  
I got to believe

The heart of a man  
Feels the passion and the pain  
The heart of a man  
When he falls in love he'll never be the same  
That's the heart of a man

Many times can't deny  
When it found me I let it slide  
Now you're here by my side  
Got no fear, nothing to hide

Now I believe, yeah  
Now I believe

That the heart of a man  
Feels the passion and the pain  
The heart of a man  
So much loving, not in vain  
The heart of a man  
So much loving deep inside  
The heart of a man  
When he falls in love he'll never be the same

Now I know what I must do  
Know this heart is true  
And I finally understand  
It's a heart of a man

Now I believe, yeah  
You know I believe

The heart of a man  
Feels the passion and the pain  
The heart of a man  
So much loving, not in vain  
The heart of a man  
So much loving deep inside  
The heart of a man  
When he falls in love he'll never be, never be the same  
That's the heart of a man  
The heart of a man, yeah
