

Hiway Nights

Great White

I know the spell you're under
I know it so well
How far well you may wonder
No way to tell

I've travelled miles from nowhere
Where suns never rise
Looking to find a meaning
Now open your eyes

I've been this way so long
Tomorrow's gone

See if the rhyme has reason
Chasing the wind
Look for a change of season
Somewhere to begin

The freeway is my song

Highway nights, red tail lights, lead my love light on
Highway nights, freeway sights, to this eagle I belong, it roll
s me on

So how can I bring you loving
Out of the night?
Is it a dream
To fade in the light?
The freeway is my song

Highway nights, red tail lights, to this eagle I belong
Highway nights, freeway sights, lead my love light on
Highway nights, red tail lights, lead my love light on
Highway nights, freeway sights, to this eagle I belong, it roll
s me on

Baby, won't you start your motor?
Baby, won't you turn it over?
Baby, won't you drive me, drive me through the night?

Highway nights, red tail lights, to this eagle I belong
Highway nights, freeway sights, lead my love light on
Highway nights, red tail lights, lead my love light on
Highway nights, freeway sights, to this eagle I belong, it roll
s me on
