

# (I've Got) Something for You

Great White

I get in town from an early flight  
Saw you there and the time was right  
Just one look and I understand  
You know she ain't going to hold my hand

Tell me that you want me  
Tell me that you care  
Well, let's get it on

One, two, three, four  
I don't have to know your name  
Oh, honey, that will be all right  
Come with me, let's play the game  
Oh, baby, I got something for you

One, two, three and you're ready to go  
Good god almighty, oh, what a show  
Slow down, honey, and tell me lies  
Hmm, my, oh, my, what a dirty mind

Tell me that you want me  
Tell me that you care  
Well, let's get it on  
Here we go

One, two, three, four  
I don't have to know your name  
Oh, honey, that will be all right  
Come with me, let's play the game  
Oh, baby, I got something for you  
Yes, I do  
All right  
Oh, right on

It's getting late and I got to go  
Heading on to the next rodeo  
You told me that you want me, but do I really care?  
Our dirty little secret that I need to share with only you, only you

One, two, three, four  
I don't have to know your name  
Oh, honey, that will be all right  
Come with me, let's play the game  
Oh, baby, ooh

I don't have to know your name  
Oh, honey, that will be all right  
Come with me, let's play the game  
Oh, baby, I got something for you  
Yes, I do  
I got something for you  
Something for you  
Something for you  
Yeah, something for you  
Yeah  
I got something for you, baby
