

In The Light

Great White

And if you feel that you can't go on
And your will is sinking low
Just believe and you can't go wrong
In the light you will find the road
You will find the road
Hey did you ever believe that i could leave you
Standing out in the cold?
Hey babe i know how it feels 'cause i have slipped through
To the very depths of my soul
Baby i just want to show you what i'd give you
It is from every bend in the road
Now listen
As i was and really would be for you too
Honey as you would for me
I would share your load
Let me share your load
Let me share share your load
And if you feel that you can't go on
In the light you will find the road
Hey though the winds of change may blow around you
But that will always be so
When love is pain it can devour you if you are never alone
I would share your load
I would share your load
Baby let me let me
In the light everybody needs a light
Everybody everybody everybody
Light light light in the light
Light light light in the light
Light light light in the light
Light light light in the light
Light light light in the light
Light light light in the light
Light light light in the light
Everybody come on come on
