

Let Me In

Great White

I can feel your heart is broken
In every way
I can hear by words you've spoken
You need a brighter day
(Oh yea)
I can feel your pain deep inside
You know my heart would never lie

Let me in
Open your heart
Love and affection
You'll make a new start
Let me in
I'll be your everything
Let me the one you need
Baby let me in (come on girl)

Someone told me
Love is all you need
I will take you up to heaven
Now you can let it be
Oh yeah
I just can't hide my feelings inside
I will be by your side
Take a chance on love

Let me in
Open your heart
Love and affection
Make a new start
Let me in (let me in)
I'll be your everything
Let me the one you
Let me be the one you need

Come girl, that's right don't be sad
Just give me a smile

I just can't hide my feelings inside
Let your heart open wide
Take a chance on love

Let me in
Open your heart
Love and affection
Is all that you need
Let me in (let me in)
Let me the one
Come take a chance on
Come take a chance on love

(Let me in)
I'll be the one
(Let me in)
Just let it go
(Let me in)
I'll be your everything

Come on take a chance on love
Baby, let me in
Baby, let me in
