

Loveless Age

Great White

When I was younger I trusted fate to pave the way
Love was so easy just a game that children play
No time out for changes all my days are darkened dreams
Now there ain't nothing and nothing's what it seems
You know heartache comes full circle has the past returned again
n again?

I'm upside down I don't understand you any more
Is it somebody else I see walking through my door?
No more lies on the table no more pictures on the wall
Feel like I'm living in a loveless age

Night brings no comfort a rider on the storm
Looking for reason in the face of destiny
'Cause faith has no meaning in a broken dream
Where there ain't no one and no one's who they seem
You know heartache comes full circle and the scars on the soul
never fade

I'm upside down I don't understand you any more
Is it somebody else I see walking through my door?
No more lies on the table no more pictures on the wall
Feel like I'm living in a loveless age
Feel like I'm living in a loveless age

I don't want you what I need
Is the touch of a woman who won't try to make me bleed
Maybe I'm crazy yeah baby that's me
No no no no no no don't go dragging me down
And then leave me to drown in this loveless age

I'm upside down I don't understand you any more
Is it somebody else I see walking through my door?
No more lies on the table no more pictures on the wall
Feel like I'm living in a loveless age
Feel like I'm living in a loveless age
Feel like I'm living in a loveless age
Living in a loveless age
It's not that easy in a loveless age
No more no more in a loveless age
Feel like I'm living in a loveless age
Feel like I'm living in a loveless age
