

Man In The Sky

Great White

Man in the sky throw me a lifeline
I'm just getting by burning the midnight oil
Man in the sky I'm trying to tell you
I come to find it's not worth fighting for

The sun in my eyes
Is all that I'm living for
Full moon on the rise
Is all that's worth dying for

Man in the sky I'm dying to see you
I realise I'm getting old
Man in the sky I'm trying to tell you
It's time to fly freedom is my choice

The sun in my eyes
Is all that I'm living for
Full moon on the rise
Is all that's worth dying for

Man in the sky I'm caught in the pipeline
I'm just getting by burning the midnight oil
Man in the sky I'm trying to tell you
I've come to find it ain't worth fighting for

The sun in my eyes
Is all that I'm living for
Full moon on the rise
Is all that's worth dying for
All that's worth dying for
All that's worth dying for
All that's worth dying for
All that's worth dying for

Man in the sky
Man in the sky
Dying to see you
Dying to see you
It's all that's worth dying for
All that's worth dying for
Man in the sky
It's all that's worth dying for
It's all that's worth dying for
