

# Moonshine

Great White

Late at night when the music's fading  
It's cold outside but my love is burning  
I need you now it's driving me crazy  
Without your taste I can't face the day  
Lord I know I must confess  
I just feel like such a mess

I call you moonshine (so fine)  
You go down easy and you get me high  
Moonshine (she's mine)  
I got to do my time

Morning comes and I'm all alone  
I can feel the chill still in my bones  
I tell myself it's like doing time  
My addiction to you is my only crime  
You got me under your spell  
I'm going mad oh can't you tell, oh!

I call you moonshine (so fine)  
You go down easy and you get me high  
Moonshine (she's mine)  
I got to do my time

I call you moonshine (so fine)  
You go down easy and you get me high  
Moonshine (she's mine)  
I got to do my time

I call you moonshine (so fine)  
You go down easy and you get me high  
Moonshine (she's mine)  
Honey you taste so fine

I need my moonshine (so fine)  
You go down easy and you get me high  
Moonshine (she's mine)  
Honey you taste so fine

I need my moonshine (so fine)  
I call you moonshine (she's mine)

Honey you taste so fine  
Honey you taste so fine

I need my moonshine
