

## Move It

Great White

Sweet little sister, this scene's sure getting old  
Don't you think it's time we've got to go?  
I got so twisted trying to make it right  
Don't you know we've wasted half the night?

I was told to use my head  
Be heard and never seen  
It's just your daddy's double talk  
Baby, and it don't mean no thing to me

Let's move it, time to say so long  
Let's move it, let's get this mother on

Hey, little sister, in your high heeled shoes  
Don't you know it's time to learn the blues?  
Sweet little sister, time to get it on  
Don't you know the meaning to this song?

I recall what daddy said  
Stay where you belong  
That's just another lie into nowhere  
Let's get this baby on

Let's move it, time to say so long  
Let's move it, let's get this mother on  
Let's move it, time to say so long  
Let's move it, let's get this mother on

Let's move it  
Let's move it  
Let's move it  
Just like that

It's just that double talk  
Don't mean no thing to me  
it's time to shake it loose  
Shake it from the family tree

Let's move it, time to say so long  
Let's move it, let's get this mother on  
Let's move it, time to say so long  
Let's move it, let's get this mother on  
Just move it
