

# Neighborhood

Great White

So lay me down easy here comes another day  
I don't want to get up no I don't want to play  
I listen to everyone all I hear is the lie  
I turn on the television and I ask myself why  
Here we go the same old faces telling me that I'm okay  
All this seems so circumstantial and then I find

It's just another day in the neighbourhood  
It's just another day and you're looking good  
You want to run away don't you wish you could?  
Ain't it good to be alive?

There's a hole in the ceiling my head's on the floor  
I see it all sideways I can't feel it no more  
Emotional vampire feeding off me  
Smother the goodness so much I can't breathe  
We're burning all our expectations to justify our misery  
I have my thoughts of happiness and realise

It's just another day in the neighbourhood  
It's just another day and you're looking good  
You want to run away don't you wish you could?  
Ain't it good to be alive?

Another pot of gold another rainbow's end  
It's just another road down down down  
It's just another road down down down  
It's just another road down

It's just another day in the neighbourhood  
It's just another day and you're looking good  
You want to run away don't you wish you could?  
Ain't it good to be alive?

It's just another day in the neighbourhood  
It's just another day and you're looking good  
You want to run away don't you wish you could?  
Ain't it good to be alive?

It's just another day in the neighbourhood  
You want to run away don't you wish you could?  
Ain't it good to be alive?

It's just another day in the neighbourhood  
You want to run away don't you wish you could?  
Ain't it good to be alive?

It's just another day in the neighbourhood  
It's just another day and you're looking good  
You want to run away don't you wish you could?  
Ain't it good to be alive?
