

# Never Change Heart

Great White

Howling night of bitter winds  
This old house is burning  
Reasons why forever retold  
And no one is learning

I move in the strange light  
In a world with no eyes  
Miss a turn in the midnight rain  
Never come this way again

When love's light deserts you  
Never change your heart  
When lightning strikes and love is gone  
Don't let it break your heart

Don't let it turn you around  
So people mistake you  
This world's going to still burn down  
No matter what it comes to

When love's light deserts you  
Never change your heart  
When lightning strikes and love is gone  
Don't let it break your heart

When love's light deserts you  
Never change your heart  
When lightning strikes and love is gone  
Don't let it break your heart

Return what you're given then be on your way  
Move on, be strong, you got to carry on  
Never change your heart

When love's light deserts you  
Never change your heart  
When lightning strikes and love is gone  
Don't let it break your heart

When love's light deserts you  
Never change your heart  
When lightning strikes and love is gone  
Don't let it break your heart

No, never change heart  
Never change heart  
Never change heart  
Never change heart  
Never change your heart
