

Never Let You Down

Great White

Woman, you cut me like a knife
With all the words you say
And that look that's in your eyes
Oh woman, won't you understand
Cold hearted angel
I'm your hot blooded man
I try so hard to get to you and I'm doing all I can

But I'm only flesh and blood
I would leave you if I could
You know I'm just a slave, to your cold hearted ways
Gonna love you 'til I die, don't know the reason why
Oh woman, will you realize
I will never let you down

Woman, please don't walk away
Don't leave me standing here
I'm a just fool who can't pretend
A broken man, wasted heart
That lives on with the pain

But I'm only flesh and blood
I would leave you if I could
You know I'm just a slave, to your cold hearted ways
Gonna love you 'til I die, don't know the reason why
Oh woman will you realize
I'll never let you down

There was a time
I thought we had it all
I would have given you my world
Look at us now, tell me what have we become
Should I stay or walk away, you know
You know this can't go on

Now I'm only flesh and blood
I would leave you if I could
You know I am just a slave, to your cold hearted ways

Gonna love you 'til I die, don't know the reason why
Oh woman, woman, oh woman, woman
I'll never let you down
Oh yeah, I will, I wil, I wil never let you down
