

# Nightmares

Great White

Got a head full of fever  
My body's wracked with pain  
Staring into blackness  
Something's waiting there for me

Try to hold to my senses  
But darkness has got a hand on me  
Stripping back the covers  
Leaving a bed of doubt and agony

It's in the shadows waiting  
Nightmares  
Nightmares  
Nightmares  
Nightmares

Parasites sucking on my veins  
Unholy fears coming true  
I wish i could sleep in the silent deep  
And escape this insanity

It's in the shadows waiting  
Nightmares  
Nightmares  
Nightmares  
Nightmares

Lost in the shadows screaming  
Nightmares, save me  
Nightmares, wake me  
Nightmares, wake me  
Nightmares
