

No Way

Great White

I get up in the morning
Just to work all day
I never had no vacation
And what's a holiday?

I'm tired of working nine to five
Somebody give me a break
Caught up in this rat race
I've got no time to waste

I want out, you can't make it
I want out, no way
I want out, so don't mistake it
It's all that you've got and you're not going to leave it, no way
There's no way

Maybe I'll buy me a new car
Maybe I'll hop on a plane
Get off in some foreign station
Somewhere that don't look the same

I'm tired of working nine to five
Somebody give me a break
Caught up in this rat race
I've got no time to waste

I want out, you can't make it
I want out, no way
I want out, so don't mistake it
It's all that you've got and you're not going to leave it, no way
There's no way

You're stuck in a rut
No, no, you can't give it up
There's no way
