

Only You Can Do

Great White

As we lay by the fire
Watching the lights all around
In this world of desire
Nothing will change love will remain

Always time for the magic moments of you and me
Always time for that sweet old song played for you and me

We're heading into the sunrise
We're headed to a brand new day
All I need is love from you
Only you can do

Ad it's all such a perfect design
My feelings for you can a love be so true?
Lying here as your heart beats with mine
Thinking of you yeah thinking of you

Got no time for the tragic moments of you and me
Got no time for that sad old song played for you and me

We're heading into the sunrise
We're headed to a brand new day
All I need is love from you
Only you can do

We're heading into the sunrise
We're headed to a brand new day
As winter springs from summer's fall
Just don't let go of me at all my love
Only you can do
All I need is love from you
Only you can do

We're heading into the sunrise
We're headed to a brand new day
All I need is love from you
Only you can do

We're heading into the sunrise
We're headed to a brand new day
All I need is love from you
Only you can do
Only you can do
Only you can do
All I need is love from you
Only you can do
