

Out Of The Night

Great White

Your mama told you, baby, I'm not the man for you
And what your daddy told you, darling, ain't nothing but the truth

I'm a rocker, I'm a roller, I'm a stone cold drinking man
I'm going to give you loving the only way I can
Don't you worry, baby, I'll be there by your side

Out of the night, I come to take your love
Out of the night, I've got to have your love

I'm a reckless outlaw, a renegade by trade
All I've got is this guitar and that's how it's got to stay
I'll find time to love you, you know I'll do it right
I'll find time to love you, and I'll make you feel all right

Out of the night, I'll give you all you need
Out of the night, so late at night I hear you plead

You're you're what I need
You're you're what I need tonight

Out of the night, I come to take your love
Out of the night, I've got to have your love

Your mama told you, baby, I'm not the man for you
And what your daddy told you, darling, ain't nothing but the truth

I'll find time to love you, you know I'll do it right
I'll find time to love you, and I'll make you feel all right

Out of the night, I come to take your love
Out of the night, your love your love your love
Out of the night, I need your loving all night long
Out of the night, I need it all the time
Out of the night, your love your love your love
Of the night
