

# Shot In The Dark

Great White

I have learned the golden words, "you watch your step"  
That life is made for fools and the devil takes the rest  
I know my heart is like a fire, it burns alone  
I come from somewhere else where, grapes of rock are grown

Call me a shot in the dark  
Firing blind, firing wild  
I'm a shot in the dark  
No stopping me, you'll never see  
Lord I'm a shot in the dark

Now I live in other days, I take my time  
I make my way down streets where no one sees the signs  
Can I learn the simple truth and face the fact?  
No matter where I am I never can go back

'Cause I'm a shot in the dark  
Firing blind, firing wild  
I'm a shot in the dark  
No stopping me, you'll never see  
'Cause I'm a shot in the dark

I'm a shot in the dark  
Firing blind, firing wild  
I'm a shot in the dark  
No stopping me, you'll never see

I'm a shot in the dark  
Firing blind, firing wild  
I'm a shot in the dark  
No stopping me, you'll never see

I'm like a shot in the dark  
A shot in the dark  
I shoot out from the black  
Just like a shot in the dark  
A shot in the dark  
I shoot out from the black  
I never can go back  
Forever changing tracks  
I'm a shot in the dark
