

Streetkiller

Great White

Every life has a price
Every fool throws the dice
Even the winners have to pay
Every dog has its day

So watch out, watch what you do
Someone's looking for you

It's the law of the land
Every fire burns a hand
Every chance that you take
Might turn out to be your last mistake

So watch out, watch who you do
Someone's looking for you

Streetkiller
Streetkiller
Streetkiller
Streetkiller

So watch out, watch who you do
Someone's looking for you

Lay down your life
You'll pay the price
Lay down your life
You're in his sights

Streetkiller
Streetkiller, he's looking for you
Streetkiller
Streetkiller, he's out for your blood
Streetkiller, he's playing your game
Streetkiller, needle and spoon
Streetkiller, he's hard on your arse
Streetkiller
