

Train To Nowhere

Great White

You can catch it if you want to ride
Don't you worry if it pass you by
You can catch it if you want to ride
Don't you worry if it pass you by
Lord you know the reason why
On this train until you die, until you die

The train I ride goes to god knows where
Ii don't know and I don't care, just don't care
The train I ride goes to god knows where
Ii don't know and I don't care, just don't care
If you ain't got money then don't despair
You don't have to pay no fare, it's a free ride man

Please now brother don't you ride this train
Ride the wrong rails, live your life in vain, what a shame
Please now brother don't you ride this train
Ride the wrong rails, live your life in vain, it's a long, long
road
Those long wide rails take you straight to nowhere man
Long way home
Wrong way home
