

Weak Brain And Narrow Mind

Great White

If you got a weak brain and a narrow mind
The world's going to leave you way behind
Your friends will deceive you leave you crying
Can't keep yours 'cause you are watching mine

If you got a strong brain and your mind is broad
You going to have more friends than a train can hold
You won't have no trouble or worries at all
If you got a strong brain and your mind is broad

You know the strong overpower the weak
And the smart they overpower the strong
The clever are the only ones enjoying the world
While the greedy save all and enjoy none

If you got a strong brain and your mind is smart
Nothing in the world is going to be too hard
We going to keep on going before others start
If you got a strong brain and your mind is smart
