## **Weak Brain And Narrow Mind**

## **Great White**

If you got a weak brain and a narrow mind The world's going to leave you way behind Your friends will deceive you leave you crying Can't keep yours 'cause you are watching mine

If you got a strong brain and your mind is broad You going to have more friends than a train can hold You won't have no trouble or worries at all If you got a strong brain and your mind is broad

You know the strong overpower the weak
And the smart they overpower the strong
The clever are the only ones enjoying the world
While the greedy save all and enjoy none

If you got a strong brain and your mind is smart Nothing in the world is going to be too hard We going to keep on going before others start If you got a strong brain and your mind is smart
