

Dancing little flames

Greedy Invalid

You stood in my way
Glittering like gold
There was no escape
My feelings still grow

Cold is your heart and cold is your soul
Cold is your body after all
Everything you had to know
It all perished to moan

Dancing for eternity
Dancing in the blaze
The fire's burning
Dancing in the ecstasy
'Cause they're dancing,
dancing little flames x2

Now can you tell me
What do you want to do?
I cannot be so sincere
I cannot be cool

Cold is your heart and cold is your soul
Cold is your body after all
Everything you had to know
It all perished to moan

Dancing for eternity
Dancing in the blaze
The fire's burning
Dancing in the ecstasy
'Cause they're dancing,
dancing little flames
