

Sitting lonely  
at your sad place  
your minds round in grief  
Hearing knocking  
on the doorway  
be afraid of a thief

You are surprised by a creature  
wondering on plutonian shore  
cold black look is its great feature  
You wanna know more

You'll be mislead by your senses  
Just don't be scared at all  
This bird came to reassure you  
Lenora's dead but you are still alive

The black tame raven  
didn't come from the sky  
this black tame raven  
the one for whom you die

As your thoughts  
are occupied  
by your love who just passed away  
You're becoming  
persuaded  
this bird is here to say bye

You are surprised by a creature  
which name is just Nevermore  
cold black look is its great feature  
You wanna know more

Is it your friend or a vicious one who  
kills you as you're terrified  
This bird came to reassure you  
Lenora's dead but you're still alive
