

Sand castle

Greedy Invalid

He lived in a castle
That was made of sand
Once the castle met disaster
No future and no pain

There was a silence unbroken
For a twenty thousand years
Lots of people crying
Such a bad disease

Disasterpiece in my tears
And you're so far away
In this life now you are still
Solitary all nights
Disasterpiece in my tears

Desperation rules today
In this life now you are still
So empty inside

The ruins of the castle
Vanished and left no sings
Some new people came there
Still they remained vain

There was a silence unbroken
For a twenty thousand years
And the people dying
Haunted by their fear

Disasterpiece in my tears
And you're so far away
In this life now you are still
Solitary all nights
Disasterpiece in my tears

Desperation rules today
In this life now you are still
So empty inside

Disasterpiece in my tears
And you're so far away
