

What Life Says Is Lie

Greedy Invalid

Flames burn sneak to my eyes
I stand on brim of crater and cry
My eyes drip to lava - what life says is lie
I look down at hot streams
Suddenly my head swims
I don't feel my body, I don't feel my mind

To fly away and forget all these lies
I long to fly away with you - just let me close my eyes
I long to be, long to flee with you I long to fly
From this world long to fade away, from this world long to die

In my hand snow burns
I break through ice and defy the glare
My eyes drip to lava - what life says is lie
I look down at hot streams
Suddenly my head swims
I don't feel my body, I don't feel my mind

My soul's burning in fire
I am fading like snow
I long to fly away with you
Just let me close my eyes
What life says is lie

I'm stranger in my own soul
Let the feelings show
My eyes full of tears - what life said was lie
I looked down at hot streams
Suddenly my head swam
I didn't feel my body, I didn't feel my mind
