

I can't believe its here
Cold December
It's getting colder everyday
I wish you were here

December comes around
It's been another year
It still feels like you are here
You're in the season
The memories won't disappear
You're in the season now
December comes around
It's been another year
December comes around
We don't want it here

And I still can't believe that you're gone now
It feels so surreal
The haunting feeling of it all
We knew this would come
It's colder than I've felt before
It wont go away

December comes around
It's been another year
It still feels like you are here
You're in the season
The memories won't disappear
You're in the season now
December comes around
It's been another year
December comes around
We don't want it here

And I still can't believe that you're gone now
It feels so surreal
God where, Where were you when we called out
We called out to you
