December

Greeley Estates

I can't believe its here Cold December It's getting colder everyday I wish you were here

December comes around It's been another year It still feels like you are here You're in the season The memories won't disappear You're in the season now December comes around It's been another year December comes around We don't want it here

And I still can't believe that you're gone now It feels so surreal The haunting feeling of it all We knew this would come It's colder than I've felt before It wont go away

December comes around It's been another year It still feels like you are here You're in the season The memories won't disappear You're in the season now December comes around It's been another year December comes around We don't want it here

And I still can't believe that you're gone now It feels so surreal God where, Where were you when we called out We called out to you
