

# Head Underwater

Greeley Estates

Head under water gasping for air  
I'll watch the light from your eyes disappear  
Head under water gasping for air  
Can you feel the weight of your lungs without air

Letting go's just a figment of your, mindless reality  
So you think your clever? Exploiting our pain  
Say your prayers pig, it's time to die

Your plans failed we all survived  
We are the new breed (2x)

I can't let go

If you tell a hundred lies in a day then it begins to  
sound like the truth  
Can you hear the vultures, they circle above  
Can you hear the vultures, say goodbye

It's all down from here  
Are you satisfied that you ruined me  
Now it's all disappeared  
Are you satisfied that you ruined my whole life

I look forward to your funeral  
You'll beg for death  
I look forward to your funeral

Suffocation's the first step as I plan out the way you  
die.  
Can you feel the water? It's in your lungs.  
Feel them fill up. Say good bye

It's all down from here.  
Are you satisfied that you ruined me  
Now it's all disappeared  
Are you satisfied that you ruin me  
All the times you held me down  
I suffocated for you  
It's all down from here  
Are you satisfied that you ruined my whole life

Head under water gasping for air  
I'll watch the light from your eyes disappear  
Head under water gasping for air  
Can you feel the weight of you lungs without air

Got your head under water  
Now you gasp for a breath of air
