

If Words Could Say

Greeley Estates

tossing and turning i just can't sleep
numb to the feelings surrounding me
try to resist what i know i believe
your still small voice is calling me

i seem bent on destroying
all that you have given me
as much as i fail you're unchanging
when i close the door you're there knocking

i hear your voice
it's haunting me
i try to escape
you just won't leave

and i know that you're there waiting to bring me back

how can i escape what i'm living in
looking for something to make sense again
and then in the shadows i see your light
it captures my heart and brings me back

i hear your voice
it's haunting me
i try to escape
you just won't leave

and i know that you're there waiting to bring me back

if words could say what you mean to me...
