

Keep the Heat on the Dash

Greeley Estates

So here we are all alone and it's getting darker

I know i should get up and leave
cause I'm not thinking clearly
I know it's just so difficult
when your body is calling

I guess I should probably behave
but i don't want to tonight
one moment that could change everything.

I know i should get up and leave
cause I'm not thinking clearly
I know it's just so difficult
when your body is calling

I can't help but imagine what it would be like
which means that I, that I should be on my way

I guess I should probably behave
but i don't want to tonight
one moment that could change everything.

I know i should get up and leave
cause I'm not thinking clearly
I know it's just so difficult
when your body is calling

Now is the time when I show you I love you
one day we'll look back on tonight...
