

# Leave the Light On

Greeley Estates

Got my fangs out, I'm ready for love.  
I can already taste what it's gonna be like to drink  
your blood.  
Don't be afraid, I'll be right by your side.  
Don't be afraid, I'll leave the light on tonight.

You say you're scared of the night.  
But are you scared when I'm with you?  
Just close your eyes.  
You say you're scared of the night.  
But are you scared when you're with me?  
Just close your eyes.  
I'll be honest, I'd like to sink my teeth into you.  
And drink you slowly.  
You say you're scared of the night.  
But are you scared of me?

I've never seen a creature like you.  
Your body, your soul; you're everything that I've  
waited for.  
Don't be afraid, I'll leave the light on tonight.

You say you're scared of the night.  
But are you scared when I'm with you?  
Just close your eyes.  
You say you're scared of the night.  
But are you scared when you're with me?  
Just close your eyes.  
I'll be honest, I'd like to sink my teeth into you.  
And drink you slowly.  
You say you're scared of the night.  
But are you scared of me?

Haunting, haunting.  
You haunt me, haunt me.  
Haunting, haunting.  
You haunt me, haunt me.

You say you're scared of the night.  
But are you scared when I'm with you?  
Just close your eyes.  
You say you're scared of the night.  
But are you scared when you're with me?  
Just close your eyes.  
I'll be honest, I'd like to sink my teeth into you.  
And drink you slowly.  
You say you're scared of the night.  
But are you scared of me?

Got my fangs out, I'm ready for love.  
I can already taste what it's gonna be like to drink  
your blood.  
Don't be afraid, I'll be right by your side.  
Don't be afraid, I'll leave the light on tonight.

Haunting, haunting.  
You haunt me, haunt me.

Haunting, haunting.
