

Yeah, It's the last thing Ima say to you

Soon you'll feel us, We're getting closer
Soon enough you won't even breathe
Soon you'll know that we're getting closer
And by that time you'd better be ready for hell

You know what you did, You thought you got away with it
Revenge is a beautiful thing
Revenge is a beautiful thing

When you feel us, We're getting closer
Just know that your time has come
I told you that we're we're getting closer
I told you that we'd find you and finish this thing

You know what you did, You thought you got away with it
Revenge is a beautiful thing

Just know you'll always be dead to me
Since you walked away you're dead to me
Watch your back
It's not over yet
Watch your back
It's not over yet
I won't rest until this ends
I won't rest until this ends

I won't rest until this ends
I won't rest until this ends

You know what you did, You thought you got away with it
Revenge is a beautiful thing
Just know you'll always be dead to me
Since you walked away you're dead to me
