

## Mother Nature Is a Terrorist

Greeley Estates

I can sense it, feel her presence  
She's always watching  
She's in the air, hear her whisper  
Calling me...

I watched the skies turn dark  
Now the storm will take me away  
Could this be all that I'm longing for,  
To join her again?

I can take her in the rain now  
While her clouds surround me  
She's so lovely as she kills me  
This is it...

I watched the skies turn dark  
Now the storm will take me away  
Could this be all that I'm longing for,  
To join her again?

Come down and take me away
