

Mouth to Mouth

Greeley Estates

Tonight I've finally seen,
Tonight your actions told of a story.
Tonight you said to me,
"Darling, you're just wasting your time on me."

I've seen you burned before,
And I've seen you burned alive.
I won't deny it, I heard a different story.
One that I can't pretend to ignore.

Tonight I saw inside,
Tonight you showed me the monster within you.
Tonight I opened my eyes.
We are who we are.

I've seen you burned before,
And I've seen you burned alive.
I won't deny it, I heard a different story.
I won't deny it.
The word is out, the word is out.
I won't deny it, I heard a different story.
One that I can't pretend to ignore.

Said you're fine, you're fine,
And then you got into the car with them.
And that's the last, the last that I heard from you for
hours, hours.
Where have you been all this time?
I've been worried sick.
And I got all, all of those drunk calls you made.
Are you serious?
I fought for you, died for you.
And this is how, how you throw me to the fire.
I've been burned.

And you said that you've never been happy.
And then your face turned to white and you passed out.
You passed out alone on my floor.
Then I picked you up, rushed you to the hospital,
And then I gave you mouth to mouth.
It was just like, just like the first time we kissed.

Mouth to mouth, I gave you mouth to mouth.
