

# The End of All We Know

Greeley Estates

Is this the end of all we know  
Will we be left with nothing to call our own  
Now it's up to us to defend  
All that we know is truth, all that we know is right

Is this the end of all that we know  
Will we be left with nothing to live for  
When darkness closes in where do we find our strength  
Will we survive this  
What's left of our innocence  
When will our eyes open

The world sleeps in darkness now  
Their hearts have turned so cold  
Time's running out  
Now it's up to us to defend our innocence  
What's left

Is this the end of all that we know  
Will we be left with nothing to live for  
When darkness closes in where do we find our strength  
Will we survive this  
What's left of our innocence  
When will our eyes open

One day the world will see what's missing in their lives  
Are we ready to die for this  
Are we ready to die for this

Is this the end of all that we know  
Will there be nothing left to live for  
When darkness closes in where do we find our strength  
Will we survive this  
What's left of our innocence  
When will our eyes open
