

# The World You Used to Know

Greeley Estates

The nights get longer and the days go by so fast  
It still feels like you're with me  
You're everywhere  
Everything I ever knew

Do you remember looking back on better days  
Those nights we spent together  
You're everywhere  
Everywhere

It feels like I've been drowning since the day you went away  
I know you're somewhere out there  
You're everywhere  
Everywhere

You cannot escape the world you used to know  
It's everywhere  
Can you feel it?  
You cannot deny the place you called your home  
It's everywhere  
But I'm still here

The nights get longer and the days go by so fast  
It still feels like you're with me  
You're everywhere  
Everywhere

I found some of your photos and I burned them one by one  
I can't live with this heartache  
You're everywhere  
Everything I ever knew

You cannot escape the world you used to know  
It's everywhere  
Can you feel it?  
You cannot deny the place you called your home  
It's everywhere  
But I'm still here

I'll light up this whole town  
I know you're somewhere out there  
I can't escape you  
You're everywhere

I'm not afraid to see the world through your eyes  
I'm just waiting for you to come back home

Lights burning bright  
The entire world's on fire  
You're everywhere  
Can you feel it?  
Lights illuminate  
The skies burn tonight  
You're everywhere  
But I'm still here

Lights burning bright

The entire world's on fire  
You're everywhere  
Can you feel it?  
Lights illuminate  
The skies burn tonight  
You're everywhere  
But I'm still here

You cannot escape the world you used to know  
It's everywhere  
Can you feel it?  
You cannot deny the place you called your home  
It's everywhere  
But I'm still here

You cannot escape the world you used to know  
It's everywhere
