

Thousand Burning Forests

Greeley Estates

Hush now, can you hear birds in the air?
I think that the fire is near.
It's time to find shelter, my dear.
How do we run from something so beautiful?

Can you taste the smoke of a thousand burning forests?
Can you find your way out?

Don't look back, all you had is gone.
You lived your whole life for yourself.
Now judgment rolls through the clouds.
You knew this would happen.
How do we run from something so beautiful?

Can you taste the smoke of a thousand burning forests?
Can you find your way out now?
Surrounded by burning trees.
I think I found an escape.
My life, my heart, my mistakes.
But still, I find that I'm running to the flames.
Towards the flames.

Now, watching the world burn down.
Is this how you pictured hell?
All of the skies burnt out.
Now, watching the world burn down.
Is this how you pictured hell?
All of the skies burnt out.
They burnt out.

Can you taste the smoke of a thousand burning forests?
Can you find your way out now?
Surrounded by burning trees.
I think I found an escape.
My life, my heart, my mistakes.
But still, I find that I'm running to the flames.
Towards the flames.

Can you taste the smoke of a thousand burning forests?
Can you find your way out?
