

Watch It Burn

Greeley Estates

Once you leave your mark, you never know where to stop

You threw everything away, and then you took this whole town and you burned it to the ground

We're all gonna die

Now there's blood on your hands and I know you'll be back for more

You just stood there and watched it burn

Everyone watch it burn

Once you leave your mark, you never know where to stop

Once you ignite the spark, I watched you burn this whole town down

They call you the pyro eyes, and they say that you get turned on by the amber glow

We're all gonna burn

And they tell me you suffer from an emptiness in your soul

You've got fire inside your eyes

Everyone watch it burn

Once you leave your mark, you never know where to stop

Once you ignite the spark, I watched you burn this whole town down

I watched you burn, I watched you burn

I watched you burn this whole town down

Once you leave your mark, you never know where to stop

It only takes one lie to spread like fire

I watched your words burn this town to embers

It only takes one lie to spread like fire

I watched your words burn this whole town down

Burn, I watched you burn it all down

[Chorus]

You cross of the names of the lives that you set ablaze

We're all out of time

And I know it wont end till it all goes up in flames

You just stood there and watched it burn
