

Wolves Make Great Actors

Greeley Estates

Now that your caught
It looks like you've used that line too many times before
And now it's worn out

It's all just a game to you
It's just a show for all the ladies
To see you're a wolf
Wolf dressed in sheepskin

Nice impression now tell us who you are
(Soon they'll see what I see
Soon they'll know you're lying)
Nice impression now tell us who you are
(Soon they'll see what I see
Soon they'll know you're lying)

Nice disguise
You just use
You use until there's nothing left to give
You act like a wounded lamb
You've done a great job of always hiding those fangs
From us but we followed the blood you put on your mask
Hoping that all the little girls will come and fall
For your bait again
By now they've all caught on

Nice impression now tell us who you are
(Soon they'll see what I see
Soon they'll know you're lying)
Nice impression now tell us who you are
(Soon they'll see what I see
Soon they'll know you're lying)

Nice disguise
I really can't take anymore if this
Anymore of your excuses
You burned that bridge too many times
Before you've left nothing but a trail of fire
Soon they'll see
Soon they'll see
Soon they'll see
Soon they'll see you're a fake

Nice impression now tell us who you are
(Soon they'll see what I see
Soon they'll know you're lying)
Nice impression now tell us who you are
(Soon they'll see what I see
Soon they'll know you're lying)
