## As Life Flows By

## **Green Carnation**

Cross my heart and hope to die With only seconds away before I... It felt so good when I hit the ground Come with me; join me on the other side

And life flows by
It hits me when I hit the ground
And life flows by
I am feeling lonely, fading slowly
And life flows by

If tomorrow never see the light

If I never get to say goodbye

It doesn't mean that I don't care

Come with me, and I will take you there

And life flows by
It hits me when I hit the ground
And life flows by
I am feeling lonely, fading slowly
And life flows by
I am feeling lonely, fading slowly
Out

When passion burns no more When your friends are all gone When laughter is heard no more I am the fool who turned away

And life flows by
It hits me when I hit the ground
And life flows by
I am feeling lonely, fading slowly
And life flows by
I am feeling lonely, fading slowly
Out
